## About Trustifi

Trustifi is a Cyber Security firm featuring solutions delivered on a Software as a Service platform. Trustifi leads the market with the easiest to use and deploy email security products providing both inbound and outbound email security from a single vendor.

The most valuable asset to any organization is the data contained in their email, and Trustifi's key objective is keeping client's data, reputation, and brand safe from all threats related to email. With Trustifi's Inbound Shield, Data Loss Prevention, and Email Encryption clients are always one step ahead of attackers.
