

Trustifi Email Signatures

Automated, Centralized Email Branding

Trustifi's Email Signatures feature automatically appends professionally branded signatures to outbound messages, helping organizations maintain consistent branding and standardized communications across all employee emails.

Administrators manage signatures centrally within the Trustifi console, eliminating the need for individual users to configure or maintain their own signatures.

Key Benefits

Automated Signature Insertion

Professional email signatures are automatically appended to outbound messages.

Centralized Administrative Control

Administrators can create, edit, and delete signatures from a single location.

Consistent Branding Across Communications

Ensure all employee emails follow approved branding and formatting standards.

Reduced Manual Effort

Manage signatures centrally instead of relying on users to maintain individual email signatures.

Secure and Seamless Implementation

Built directly into Trustifi's infrastructure, eliminating the need to create additional mail flow connectors or external routing rules.

Core Features

Dynamic Fields

Signatures support dynamic placeholders such as:

- Sender name
- Job title
- Phone number
- Company name
- Recipient email

These fields automatically populate with real data at send time.

Rich Text & HTML Editor

A built-in editor allows administrators to design signatures using:

- Fonts and colors
- Images and company logos
- Hyperlinks
- Social media icons

HTML Import & Export

Import externally designed signatures using HTML or export signatures for backup and further editing.

Live Preview

Review signature layout, spacing, and formatting before saving.

Rule-Based Signature Deployment

Signatures are applied using Trustifi outbound rules, giving administrators precise control over when and to whom signatures are added.

Flexible Use Cases

Trustifi Email Signatures support a variety of organizational needs, including:

Marketing and brand consistency

Department-specific signatures

Compliance notices and legal disclaimers

Multi-brand or multi-team environments
